OF RESISTANCE

RHYTHMS

OF RESISTANCE

History

Rhythms of Resistance take some of their inspiration from the "blocos-afros" bands (e.g. Olodum or Ilê Aiyê) that emerged in the mid-1970s in Salvadore, in the Bahia region of Brazil. These bands were formed as expressions of black awareness, in defiance of a military dictatorship which viewed any "cultural" group as potentially "communist" and ruthlessly suppressed them. Blocos-afros bands were responsible for blending traditional samba rhythms with reggae, salsa and merengue to create the samba style now known as Samba Reggae. Today many of these bands still campaign for freedom, human rights and equal opportunities, and fight against social injustice and racism

The first Rhythms of Resistance band formed 2000 in London, in reaction against the repression of Reclaim The Streets happenings by the police. Rhythms of Resistance formed as part of the UK Earth First action against the IMF / World Bank in Prague in September 2000. A Pink and Silver carnival bloc, focused around a 55 piece band, detached itself from a march of 67000 and outmanouvered police resources defending the IMF annual summit. With an international 'black bloc' and a large contingent from the Italian movement, 'Ya Basta', three diverse forms of direct action worked towards a common goal and resulted in the shut down of the IMF summit. From then on, along with the movement against capitalist globalisation, one group after the other popped up – now we're all over Europe and occasional in the rest of the world.

The Network

The Rhythms of Resistance (RoR) network of activist samba drum bands comprises more than 30 separate activist samba drum bands all over the world. RoR is descended from the pink and silver "tactical frivolity" bloc (aka the "silly stunts and fluffy stuff" section) of the anti-Globalisation campaigns of the 1990s and early 2000s. As such, the use of tactical frivolity, carnival and creativity are a defining hallmark of bands in the RoR network (it is also why many of the bands in the RoR network wear pink when out and about).

	Wir				Wil			

Snowboots + Hips

3 steps forward as if stumping through deep snow (half pace). Jump right on 4th step. Shake hips back and forth for 4 beats, jump left, shake hips for 4 beats, jump + turn 180° around. 3 snow steps backwards, jump, hips, jump, hips, jump. On last beat turn 180° around to face front again.

Step Kick

4 steps forward, kick forward on the 3rd step, then 4 steps backward, kick backward on the 7th step. Repeat.

Tiger (with claws)

Jump forward. Arms are stretched out front. hands form tiger claws and scratch.

Jump to the right with claws, turn and jump back with claws, jump to the left with claws (should have jumped once around you to all 4 sides with claws). Repeat once

Winding Plants

Start with elegantly crossing your arms in front of your right hip. Then wind your arms up like climbing plants, forming waves within 4 beats. When you reach the top, open hands to a bowl. While you are doing that, take 2 steps forward and 2 steps backward. Then repeat winding up on the left side. Once again right side and left side.

All the bands in the RoR network play the same tunes and try and use the same hand signals. This means at large events, different bands can join up to form a large and exuberant bateria.

RoR bands work on a decentralised and democratic basis. All decisions within each band are made by consensus. No-one is "in charge" and those who have just joined the band have the same voice as those who have been members for many years. Each band operates independently, joining campaigns and actions that they themselves support, but they may join together for national demos etc. At large events, where multiple bands meet up and play together, mestres may come from any of the bands present, swapping in and out as mood and movement takes them.

Although each band in the network is a independent entity answerable only to its members, they all share some common beliefs and values that define the Rhythms of Resistance network as a whole :

Principles

We are a transnational anti-hierarchical anticapitalist, antisexist and antiracist network fighting for social and ecological justice.

We are activists using tactical frivolity as a form of political action to confront any system of domination.

We also directly support everybody experiencing or struggling against exploitation, discrimination and oppression, without compromising our principles.

Our tactics include drumming and dancing inspired by samba and carnival.

We reject any false opposition between militancy and creative forms of resistance.

Even if we are different bands operating in a decentralized fashion, we aim to maximise participation in our collective process.

We are an open network to any people who share our principles.

Come with us! We have everything to play for!

Cultural Appropriation

Cultural appropriation is the adoption of elements of a minority culture by members of a dominant culture, while using these elements outside of their original cultural context. These cultural properties may be forms of dress, music or art, religion, language, intellectual property or social behavior, all of which may have deep cultural meaning to the original culture, but may be used as fashion by those from outside that culture.

Often, the original meaning of these cultural elements is lost or distorted, and such displays are often viewed as disrespectful, or even as a form of desecration, by members of the originating culture. Cultural elements which may have deep meaning to the original culture may be reduced to “exotic” fashion or toys by those from the dominant culture. When this is done, the imitator, who does not experience that oppression is able to “play”, temporarily, an “exotic” other, without experiencing any of the daily discriminations faced by other cultures. Appropriation and the “fetishizing” of cultures, in fact, alienates those whose culture is being appropriated

(From Wikipedia)

Rhythms of Resistance takes its form of action and some aspects of its music from a Brazilian Black liberation movement, while not being part of that movement. Our selection of instruments is the same and our way of maestrating similar to real batucadas. Custard, Samba Reggae and Sheffield Samba Reggae are simplified versions of original Samba Reggae rhythms, and Afoxê, Bhangra, Crazy Monkey, Hafla and probably others are based on other styles of music from the Global South. The names Voodoo and Xango have a religious background.

There is an ongoing debate in the RoR network about to what extent this is cultural appropriation, and what consequences to draw from that. Many bands have decided to stop calling themselves “Samba” or “Batucada”, but rather use alternative phrases like percussion or drumming. Some bands have decided to stop playing specific tunes.

Still it is important to acknowledge that our methods and music are inspired by Samba and Carnival and are using many elements from it.

Lead Pipe
Hold your left arm to the front, the right to the back, palms up (as if you are carrying a big pipe). Move your right foot to the front and swing the pipe. Go back to your initial position (4 beats). At “Go” you throw the pipe away and twist around. Comment: After the move you stand a bit ahead of your initial position.

Puke
Hold your hand as if you’d catch a big ball in front of your face. [1] Jump with your right leg to the front. Twist your hands 360° to the front. (You end with your palms up, as if you’d carry a pile of paper). Move your body down. [2] Step back onto you left leg. Your hands to the same move as at beat 1 but reverse.

(You end this movement at beat 3.) [3] Jump with your right leg back. Your body seems to fall back. [4] Step to the front onto your left leg again.

Swords
[1] Move one leg in front of the other leg. Move the corresponding arm down (it’s a sword). The other arm is bowed. [2] Step on the other leg. Bow the stretched out arm. Stech out the other down. [3] Step on the other leg (you’re now back on the initial position.) Bow the stretched out arm. Stretch out the other. [4] Here another swords-move starts, or in case of “X” you just step on the other leg. Comment: 16 beats are good for this move.

RoR Player

On <https://player.rhythms-of-resistance.org/>, you can find a player for all RoR tunes, where you can look at the tune sheets, listen to them, combine them in different ways, modify them, and even create your own tunes.

The player has two modes, which you can select on top of the screen. In "Listen" mode, you can listen and read a detailed description of each tune by selecting one from the list on the left (on mobile devices, click on the menu button on the top left first). By clicking on the pen symbol, you can see the notes of a tune or break while it is playing.

By clicking the dropdown with the Equalizer symbol, you can make specific instruments louder or quieter, adjust the playback speed, and add a whistle sound on the 1 or on each beat.

In "Compose" mode, you can modify tunes/breaks, compose your own ones, and listen to them in different combinations. On the right side, you can create a "song" (a sequence of tunes/breaks). For this, either click on the plus sign on a tune/break in the tune list, or you drag it into the song. If you drag it to the row of one instrument, only this instrument will play it, if you drag it into the "All" row that appears on the bottom of the song player, all instruments will play it. To change which instruments play a tune/break, either drag it around, or click on the hand to select the instruments, or use the resize handle in the bottom right of a tune/break block.

When you click on the pen (Edit) symbol on a tune/break, the tune sheet for that tune/break is opened. You can change the tune sheet, even while it is playing, by clicking in any place and selecting what kind of stroke the instrument should be playing there. You can also type the strokes on your keyboard (for example by pressing an X for a normal stroke), which is much faster when you want to modify a whole line.

You can create create your own tunes by clicking "New tune" in the bottom of the tune list. Any modifications that you make to existing tunes and any tunes that you create are saved in your browser, so when you restart your computer, they are still there, but to share them with other people, you need to click on "Tools" → "Share" to generate a link that contains your tunes. When opening a link that someone else sent you, use the "History" button on the top right to go back to the tunes/songs that you had created before.

Hold your arms streched out to both sides. [1] Touch with one stretched out leg the ground in front of you. (Don't step) [2] Now step with that leg and walk side- wards. (3 steps, cross behind the leg.)

Tamborim Stroke

Make a circle with your index finger and thumb, like "OK"

Play another instrument

Hold both hands in front of your face, and wave your arms to cross each other

Switch Call/Response

Point with both index fingers forward and wave your arms to cross each other.

In a loop

Hold one arm vertically in front of your body and make a wave over it with the other hand

Storming Break

show the arm as a measure with the other hand on elbow don't make a fist

Alerting / Magic Wand Break

show your flat hand and hit it with stick

Chaos Break

Point with index finger at temple

Again

Hit with flat hand on forehead

Improvisation

Point at your nose and at the sambista who can play freely

Notation

Call-Response

Everyone plays the line of the tamborim once

Show this sign followed by the sign of an instrument to make everyone play the line of that instrument.

Calling and responding instruments switch roles. Only works in Call+Response breaks, for example Wolf Break or Funk Break 1.

When any break or sequence of breaks is shown followed by this sign, it should be repeated continuously until the maestra instructs to play something else.

chosen instrument section plays sixteenths with volume indicated by maestra if you can't stand it anymore: scream

Stop the Surdos. Give a sign for when the Surdos should hit once, by hitting the stick on the hand in the air. It's easier to follow if you paint a small loop in the air with your stick, just before hitting. Start with just one hit every four beats, then add more.

Everyone plays something chaotic, getting louder and louder. No Counting in!

Repeat the last break (combination)

Show all others what they should do in the meantime, so the length of the impro part is defined
